TO DEBAUCH THE STATE PRIMARY.

But we know the law is good, if a the law is not made for a righteous man, but for the iswiess and disobedient, for the ungodly and for sinners, for unboly and profuse, for martierers of fathers and mothers, for manufayers, for whore-mongers, for "Lem that defile themselves with manaind, for mensicalers, for fiars, for perjured persons.-1 Tim 8-9

The Primary Election Law of the State of Florida is a magnificent enactment. Its purpose was to secure an honest expression of the will of the voters. It was not made for honest men. They did not require it. It was made for "liars, for perjured persons"for those who would debauch the electorate. It prohibits the paying of poll taxes in bulk by those who would profit by qualifying the purchasable vote of

But there never was a law enacted, no matter how stringent, but that the viclously inclined would seek to evade it.

That such an effort is being made to evade and violate the provisions of the primary law of Florida, is shown in the subjoined letter. The letter was written by Pleasant A. Holt of Jacksonville, manager of the campaign the liquid interests of the state are now waging against the statewide prohibition amend ment which is to come before the people for settlement next November. The letter was written to W. H. Price, Chairman of the State Democratic Executive Committee, and though a month has passed since its receipt there is no record of any protest having been made by Mr. Price. This is a matter that Mr. Price will be called upon to settle with the democratic party. The letter is as

What is Wilson doing?
Please lot me know the situation in regard to the State Senator.
You know I promised to help Wilson to the extent of five hundred dollars (\$300.00). Part of this money is to come from the race track. I have paid him one hundred dollars, I still feel ob ligated to the extent of \$400.00.

IT SEEMS TO ME THAT THE PROPER PLACE FOR SOME OF THIS MONEY TO GO IS TO PAY POLL TAXES WON'T SOME OI IT BE SPENT THIS WAY? Pleaselet me know about this.

How many poll taxes have been paid

up to date in your county?
How many persons are there around
Marianna and other precincts in the county, who will not pay their own pol-taxes, who would vote against the amend ment, and probably also for Smith and Wilson, WHOM WE CAN PAY?

Can you pay these in bulk to the Tax Collector? Please don't answer this off hand, but find out from him. My opin ion is he is going to track the this is so, how can you use this money to pay poll taxes?

It is almost a superhuman effort to col-lar a man and take him up to the tax col-lector's office and see that he turns the two dollar bill you give him over to the tax collector. That is the way we are having to do it here. Is it practical in Please talk with Lewis and let me hear

Yours cordially, P. A. HOLT.

The Wilson mentioned in the letter the candidate for state senator from Jack son county. Mr. Cassidey is Senator Tal laferro's political manager. W. E. B Smith is a candidate for representative in the legislature from Jackson county Both Wilson and Smith are friendly to the liquor interests.

It may be possible that Chairman Price is not guilty of any wrong. There is one chance in a thousand-and not MORE THAN ONE-that he may emerge clean handed.

He has not publicly resented the methods proposed by Holt, as he was in honor bound to do. The case looks had for him. It is time the democratic party of Fiorida should begin house cleaning.

No one expected anything different than the methods proposed in this letter from the whisky interests, backed by its co-parraers, the race track bunco gang.

If you would see some fire and a real hot time generally, just let some corrup tionist attempt to pay poll taxes in bulk to the young man who officiates as Tax Collector of Putnam county.

After the most persistent exploitation in behalf of the enterprise, only 65 sems were occupied at Commander Peary's north pole lecture in Pittsburgh. The commander and Matt Henson are about even as to drawing honors on the

General regret will be felt by those conversant with the law-making branch of the state government over the fact that Dr. E. S. Crill of Palatka has decided not to return to the state senate. Dr. Crill was always fair and broad minded and had the respect of every member of the legislature. Regarding his retirement the Palatka News truthfully says: Senator Crill positively declined to stand for a re-nomination and Putnam county has deplored the fact for two months. As a state senator for many years and intimately associated in the details of the state's revenues, Dr. Crill loomed large and his retirement, now that its significance is being grasped, is calling forth genuine expressions of regret from all sections of Florida.-St. Augustine Record.

Charles W. Morse the convicted banker now serving a term in the Federal prison in Atlanta, pleads the general issue that if he is guilty of a prison of lease so banker in the country is innocent. That is probably another of Mr. Morse's "far-fetched" statements. It is what Mark Twain would call a "greatly exaggerated" statement. It is quite likely true that Morse did not invent the particular style of bank wrecking that occurred in the momentous October of 1907. It is well known that at least a dozen other men were equally concerned in that debauch of financial pyramiding, and that reckless use of trust lands to support reckless speculation, or doubtful financing schemes is a too common practice. Morse was no more guilty than a score of others. But he was caught. When 20 boys are seen raiding a melon patch the fellow who is caught before he can vault the fence and who gets the pummeling that the outraged farmer would have given to the aggregation, makes precisely the same

Gov. Walter Stubbs of Kansas, in a peech in Chicago, March 27th, and as oublished in an associated press telegram. "out his foot on the necks" of those who maintain that absolute prohibition would bring commercial ruin to a community. He cited the experience of Kansas as showing how statewide prohiotton precluded "race suicide" and en ouraged savings bank accounts. "Pro hibition in Kansas is not a result of at mospheric conditions," said Goy. Stubbs. 'The climate has nothing to do with it ceason was at the bottom of it all. As result the people of Kansas today are etter fed, better clothed, have finer iomes, larger families and bigger bank occounts. The cry of anti-prohibition eterests that wiping out the saloons would bring stagnation has been utterly refuted. I have proofs by which, figurnively speaking, I think I have my loot on the necks of those who circulate antiprohibition talk. It was said three years ago that the wiping out of Wichita's orty-seven saloons would ruin the town. Today, with no saloons the town has doubled its population, more than doubld its bank account, has better people, less crime, more schools and more in elligence. I have just received letters and telegrams from the mayors of twencities and town, from twenty-nine district judges, and from chiefs of police and they all agree that the day statewide prohibition went into effect in Kansas was the brightest day in that state's his-

Why does Great Britian buy its oatmeal of us?

Certainly it seems like carrying coals to Newcastle to speak of export-ing outmeal to Scotland and yet, every year the Quaker Oats Company sends hundreds of thousands of cases of Quaker Oats to Great Britian and Europe.

The reason is simple; while the English and Scotch have for centuries eaten oatmeal in quantities and with a regularity that has made them the most rugged physically, and active mentally of all people, the American has been eating oatmeal and trying all the time to improve the methods of manufacture so that he might get that desirable foreign trade.

How well he has succeeded would he seen at a glance at the export re-ports on Quaker Oats. This brand is without a rival; is packed in regular packages, and in hermetically sealed ting for hot climates.
